- 1TB HDD Included
- Night vision up to 100ft/30m & colour night vision up to 32ft/10m with the sensor lights on
- One App, Complete Security This product is compatible with the Swann Security app ecosystem
- Smart Search Finds Movement in Specific Areas

4 Camera 4 Channel 1080p Full HD DVR Security System with 1TB HDD & 4 x 1080p Heat & Motion Sensing Warning Light Security Cameras.

Protect your loved ones & property with this multi-camera, wired surveillance system with everything you need to do-it-yourself or have it professionally installed.

Full HD 1080p resolution lets you discern important details which are essential for evidence, such as faces & license plates.

Have peace of mind 24/7 with powerful night vision up to 100ft/30m & colour night vision up to 32ft/10m with the sensor lights on.

Swann's True Detect™ heat & motion detection records video, sends push notifications & turn on the sensor light when it detects heat from warm objects, like people & cars.

Enjoy free local recording for up to a whole year+ onto a massive 1TB hard drive & save footage directly to your personal Dropbox account.

Cut the cost of crime & know what's happening with this Full HD 1080p security system to suit homes, offices, small businesses & retail stores.

Compatible with IOS and Android only.

Swann 4x Camera SecureAlert 4K Ultra HD Wi-Fi NVR Security System (1TB HDD) \$634

Installation Starts From \$450

Product Specifications

Wireless Video Signal

The cameras plug into power while their video signal back to the NVR is wireless, making installation easy.

Night2Day™ Colour Night Vision

Powerful night vision up to 35m & the ability to see colour video at night up to 10m*.

See & Hear Everything in Ultra HD^

State-of-the-art video to see faces, license plates, clothing in colour, close ups & more.

Free Recording

Retain video up to 1 year onto 1TB hard drive† & back up to the cloud.

Truly Reliable Security

Swann's True Detect™ heat & motion detection† records & sends push notifications when it detects heat from warm objects, like people & cars.

See & Hear

Recognize faces**, detect vehicles, talk to visitors & more, to know what's happening 24/7

Connect with SwannNet™

The NVR plugs into power & connects to your internet router via the included network cable or Wi-Fi. SwannNet™ allows you to select whether each camera connects to the NVR or your home Wi-Fi, meaning you can choose whichever Network has a stronger Wi-Fi signal.

Key Features

Controllable sensor spotlights with red and blue flashing lights deter intruders

State-of-the-art video to see faces, license plates, close ups and more

See colour video at night up to 10m and black and white up to 35m

Retain video up to 12 months onto 1TB hard drive and back up to the cloud

Heat and motion-sensing for more reliable alerts

Swann 4x Camera 4K AdvancedX Series NVR Security System (1TB HDD) \$799

Installation Starts From \$450

Product Specifications

See More, Worry Less

Free Local & Cloud Recording

Recording is always free to the massive local hard drive, with the ability to backup footage to secure cloud.

Never Miss a Thing

Pre-recording ensures you capture the seconds before & after the activity starts & clips continue until the action stops.

See Further with 4K

Zoom in to see faces, license plates, logos on clothing, labels on boxes & more, like never before.

Smart Video Analytics

Know what's happening sooner with people, vehicle, motion, sound, line crossing & perimeter-intrusion detection.

Turn Night Into Day

Powerful spotlights ensure you can see people, objects & activity up to 50ft/15m in color.

Peace of Mind, Every Day

Enjoy the advanced security from multi-camera NVR systems that cover every angle, with bullet & dome camera options.

Key Features

Smart AI detection

Continuous 24/7 recording

Trusted wire connection

Swann 6x Camera 4K AdvancedX Series NVR Security System (1TB HDD) \$999

Installation Starts From \$650

**Swann 8x Camera AdvancedX 4K 16 Channel Bullet Security System
(2TB HDD) \$1499**

Installation Starts From \$850

Product Specifications

Robust and Reliable Wired Security; 4K Ultra HD Video, No monthly fee - 2TB Hard Drive for free local recording; Spotlights and Microphones on each camera; Colour Night Vision; Smart Detection Analytics and Pre Recording; NVR Supports up to 16 cameras; View from anywhere on your smartphone, Offline Mode - connect a monitor and view locally without the need for internet.

Reliable Wired Security - cameras are connected back to the NVR via network cables, ensuring robust and uninterrupted performance at all times.

Experience unparalleled detail with 4K Ultra HD resolution, allowing you to zoom in and identify important details.

No Monthly Fees - The NVR features a large 2TB hard drive which can store many month's worth of motion-activated clips. You can also choose to record continuously 24/7.

Pre-Recording & Smart Detection - Cameras start recording clips even before a person enters their detection zone. You can choose whether they detect people, vehicles, loud sounds, or from people/vehicles/pets entering an area.

Colour Night Vision - See vibrant colour video at night up to 50ft/15m and black and white up to 100ft/30m.

View your cameras from anywhere in the world on your smartphone using the Swann Security app.

Orion Grid Connect Smart Alarm System \$199

Installation Starts From \$450

Alarm System Product Specifications

Use Wi-Fi to set and control your system or link with other sensors and sirens

Arm and disarm from the keypad or remotes

Detailed settings to control sensor behaviour

Built-in speaker with siren or chime tones

Contains two motion sensors and two contact sensors

The Smart Alarm System with Keypad provides a more connected alternative to traditional alarm systems, and are the perfect complement for the Orion security camera range.

This kit comes with everything you need to get started. The main unit contains a built-in 85dB alarm, backup battery for power outages and a backlit keypad. You can also arm and disarm your system with the included remotes and tags. Two motion sensors and contact sensors are provided in the box. You can connect DA585 or DA586 alert buttons (sold separately) directly with the keypad, or link other Grid Connect cameras and sensors using automations. Mounting accessories, batteries and a power adaptor are all included in the box.

The Wi-Fi connection allows the alarm system to send notifications straight to your smartphone. In addition to arming and disarming, you can also access

granular settings from the app, including customisable entry and exit delays, and selectable settings for each sensor.

The sensors communicate with the main unit using RF 433MHz. The transmission distance will vary depending on obstacles and interference, but can be up to 30 metres in an open area. The motion sensors have a detection range of 12 metres with 110 degree angle.

This product is compatible with the Grid Connect smart home automation system, built to optimise your everyday living. Simply download the free Grid Connect app on your iOS or Android device and use your home Wi-Fi or mobile internet connection to control, customise and automate your product. It takes only minutes to set up, and there's a wide range of products available that allow you to customise your system any way you like. Use the app to create the perfect light for every moment of the day, set your product to operate on your ideal schedule, and enjoy peace of mind while you're away.

Outdoor Siren Product Specifications

Wi-Fi connection for linkage to other Grid Connect devices

Up to 100dB sound output with adjustable volume

Tamper sensor

IP44 weather rating

Mounting accessories included

The Smart Outdoor Siren is a Wi-Fi accessory for your Grid Connect smart home. Use automations to link this product to cameras, sensors and more.

The built-in tamper sensor can send alerts and trigger the siren if the device is removed. An internal backup battery allows the product to continue sounding even if disconnected from power.

This product is compatible with the Grid Connect smart home automation system, built to optimise your everyday living. Simply download the free Grid Connect app on your iOS or Android device and use your home Wi-Fi or mobile internet connection to control, customise and automate your product. It takes only minutes to set up, and there's a wide range of products available that allow you to customise your system any way you like. Use the app to

create the perfect light for every moment of the day, set your product to operate on your ideal schedule, and enjoy peace of mind while you're away

Motion Sensor Product Specifications

10m detection range

Receive notifications on your mobile device through the Grid Connect app

Can be powered through USB cable or with 2 CR123A batteries (included)

Connects directly to your Wi-Fi network

Low battery alerts

Enjoy peace of mind with the Orion security range. When motion is detected, you can receive notifications right from your smartphone. Check your device history in the Grid Connect app to see when it was triggered. Add additional security by linking Grid Connect sirens or security lighting through automation (sold separately).

This sensor supports two power sources. For the fastest response time, connect the device to a USB power source and never worry about running out of battery. For wireless operation and easier installation, simply use the included CR123A batteries. You can select for notifications to be sent when the battery level is low.

This product is compatible with the Grid Connect smart home automation system, built to optimise your everyday living. Simply download the free Grid Connect app on your iOS or Android device and use your home Wi-Fi or mobile internet connection to control, customise and automate your product. It takes only minutes to set up, and there's a wide range of products available that allow you to customise your system any way you like. Use the app to create the perfect light for every moment of the day, set your product to operate on your ideal schedule, and enjoy peace of mind while you're away.
